

PAMUKKALE UNIVERSITY
INVITES YOU TO

11 TH. EGPD 2020

LEARN, LOVE AND LIVE

**Pamukkale University Geothermal
Energy Application and Research
Center
Denizli/Turkey
www.pau.edu.tr
geothermal@pau.edu.tr**

develop new cooperation with geoscientist,
gain new point of view about geothermal,
meet new friends and have loads of learn!

Why you should vote for Turkey?

If you want to observe the state of art technology geothermal power plants on site,

1

If you have never seen a fumarole at any field excursion,

2

If you want to investigate in-situ tectonic structures and alteration outcrops which belongs to a world famous continental rift horst-graben geothermal system,

3

If you want to share the experiences of Earth Scientists and Engineers who have been finding solutions to countless problems of producing energy from High Enthalpy geothermal systems.,

4

If you have never visited Pamukkale travertines, the magnum opus of natural geothermal flow. Or the ancient cities of Hierapolis, Laodikeia and Aphrodisias,

5

If you want to have the chance to taste the authentic flavors of Turkey. Kebabs, baklava and famous delights, at its homeland

6

If you want to extend your trip in order to visit Istanbul, Izmir or Antalya after the event,

7
